Nachusa Grasslands Prescribed Fire Crew

Summary Report Fall 2018 through Spring 2019

By Bill Kleiman, The Nature Conservancy April 28, 2019

Share with your colleagues

Some fire crews wear any color of helmet. At Nachusa the burn boss wears the red helmet. The photo is a new red helmet for Cody on his first official RxB2 Burn Boss led fire. After fifteen years of fire experience, over 200 prescribed fires, 5 skill task books checked off, ten fire courses, and chasing wildfires in Belize; Cody has his red helmet.

The numbers:

We broke our burn acreage record again this year with 2,730-acres at Nachusa and we had 335-acres with assists to partners. We burned two oak woodland units of 400-aces and 354-acres.

We burned 25 units and we assisted other agencies with fire on an additional 8 units.

We had 20 burn days, a medium number, where the weather was cold and often damp and windy. We were often wearing long underwear this spring. We only used an east wind once and that was to burn brush piles before a storm came through. We had 12 south wind days, 2 pure west days and 5 north burn days.

This is not Illinois, but southern Belize in Central America, where Cody and I participated in a wildland fire suppression training. This training moved Cody to the finish line of his wildfire task book. An excellent short video on that training is here: <u>https://vimeo.com/328829970</u>

Fires done by Nachusa Grasslands crew from Fall 2018 to Spring 2019

Below: Joining us for day of fire was John Peters and Chris Zeiner of McHenry County Conservation District. MCCD has a long history of good fire.

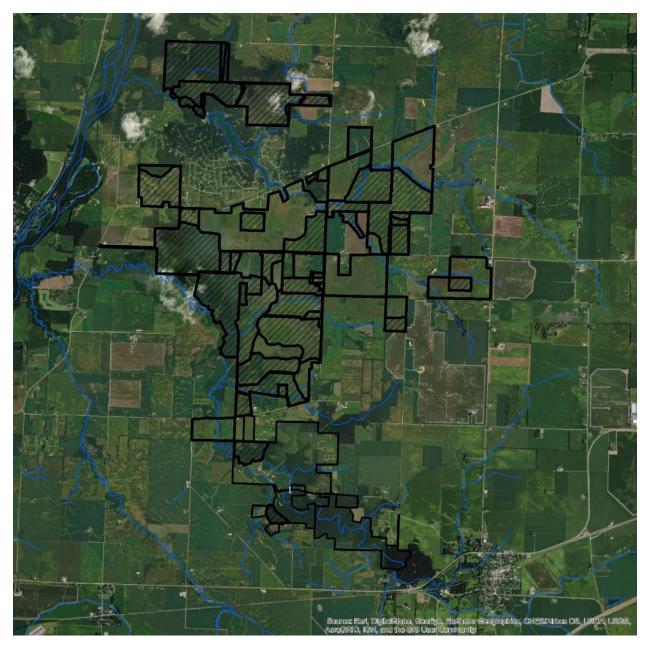

Below: We hosted an advance prescribed fire class this late winter, Rx-301. Here you see students doing a "sand table" exercise with a fire laid out and various short scenarios discussed.

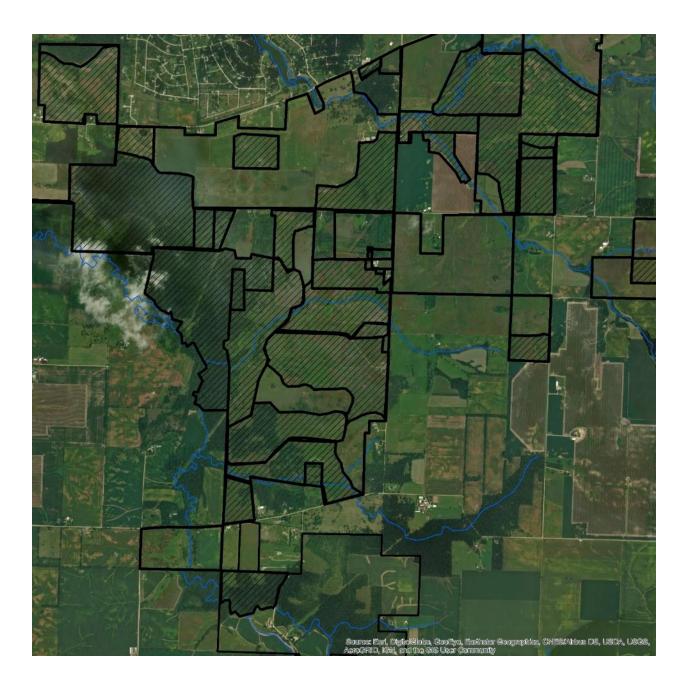

Below: Phil Nagorny kept our brush clearing projects going all winter and then helped us with a great fire season. He is off to another wildfire season with USFWS.

Maps below are the fires accomplished shown in hash marks with the second map a closer view of the first.

Below: Training the next generation. We work to teach and literally pass the torch.

Below: A short flame length fire slowly moves through the oak forest, the heat of the flames top kills the shrubs, briars and some small trees. Fire favors the oaks which need the extra sunlight, and readily resprout, as needed, after fire.

Below: This is Toren Reis from Germany who is interning with us for a year. He kept saying he was a trainee even after an entire season of fire, but I think he got it within the first fire. Behind Toren is Tyler Pellegrini, last year's student volunteer who we hired to this year's crew.

Below: I was trying to get photos of every fire crew this season but fell short. This crew burned two units for a total of about 100-acres on a day with a high temperature of 38.

Below: This wet spring was ruled by the Utility Vehicle, UTV. This UTV has some features I can point out such as it holds two drip torches, a rake handle sits angled upwards so it is not in the way, the roof has a hazard blinker, the driver can hear and transmit clearly on the radio as they wears a helmet with earmuffs and a microphone. The big logo on the side is for bling. The tow hook on rear bottom is ready to pull it out of the mud.

Below: The Soderholm fire crew of April 2.

Below: Landscape painter Phillip Juras has been out to Nachusa painting several times this year. He will have an exhibit of his works at the Chicago Botanic Gardens in May 2020. Here is a link to a short video of Phil painting a fire as it happens. <u>https://tnc.box.com/s/qpw8tzwwq7jmjswuugpit7kxsrcpv4nn</u>

Below: We have been trying out a few different hay rakes to move the mowed prairie off the fire breaks. The one on the right does a nice job but costs more. Raking makes a big difference. Here is a short video of a wheel rake <u>https://tnc.box.com/s/dqxzuq24gunzhhdyeg051hlfszu2moac</u>

When you rake a tallgrass prairie the windrow can be thick at times as shown in photo below. We often use a tractor mounted leaf blower to scatter the windrow as seen here: https://tnc.box.com/s/7loljwih0i9xr6wax63ovv37bbv1gjyh

Below: I have led 400 fires in 26 years at Nachusa. Fire continues to be an engrossing challenge. I love the team work, overcoming logistic hurdles, and the ecology of fire.

Nachusa Crew list for Fall 2018 through Spring 2019. Let me know if I missed you.

First name	Last Name	<u># of</u> fires	<u>Comments</u>
Elizabeth	Bach	10	
Kaleb	Baker	14	Finished his MS
Hailey	Borden	2	NIU student
Bill	Bowes	7	Bill Bowes just got his RxB2. Nice work!
Ashley	Brousard	1	NIU student
Bernie	Buchholz	1	
Emily	Burdett	1	NIU student
Jeff	Cologna	4	
Cody	Considine	13	New RxB2
Damian	Considine	5	Line boss

Chris	Zeiner	1	visit from McHenry County Cons District
TOTAL CREW		46	

Walk ups accepted at our Illinois Prescribed Fire Council Symposium in May 8. Find info at <u>https://www.illinoisprescribedfirecou</u> <u>ncil.org/</u> Below: April 3 fire crew

Below: The April 9 fire ran into the evening as the fire slowly worked its way around the interior woods.

Below: This dedicated brush mower opens to sunlight brush filled habitats which then fire can keep open and healthy. We are trying to figure out how to buy one of these. Are you able to help?

End. Share with colleagues.
