

Planting 54—Pasture First Year—Clear Creek Unit—Spring 2001

This was burned in the spring and then seed that was hand collected by Shannon Neuendorf was planted and harrowed in. The planting was mowed in June and July.

The following are the seeds and amounts collected (and most were planted).

Common name	scientific name	Bag size	weight	%chaff	conservation value	NWC	gathered	Clear Creek	Carpeenter	prosser
